Supplemental Financial Information

As supplemental information, we provide a non-U.S. generally accepted accounting principles ("non-GAAP") performance measure that we refer to as Cash Earnings. We provide this measure in addition to, but not as a substitute for, net income reported on a U.S. generally accepted accounting principles ("GAAP") basis. Our management and the Board of Directors review Cash Earnings to evaluate our ongoing performance, allocate resources and review our dividend policy. We believe that this non-GAAP performance measure, while not a substitute for GAAP net income, is useful for management and investors when evaluating our underlying operating and financial performance and our available resources. We do not advocate that investors consider this non-GAAP measure without considering financial information prepared in accordance with GAAP.

In calculating quarterly Cash Earnings, we add back to net income the non-cash amortization expense associated with our intangible assets. Although depreciation on property & equipment and amortization of leaseholds are also non-cash expenses, we do not add it back when calculating Cash Earnings because those charges represent a decline in the value of the related assets that will ultimately require replacement.

The following table provides a reconciliation of net income to Cash Earnings and Cash Earnings Per Share for the quarterly periods presented:

	 For the Quarter Ended March 31,			
	 2024		2023	
Net income	\$ 298,161	\$	377,536	
Add: Intangible amortization	 81,475		81,475	
Cash Earnings	\$ 379,636	\$	459,011	
Cash Earnings Per Fully Diluted Share	\$ 0.23	\$	0.29
